# The Proposed Railroad. Its Advantages.

The proposed railroad to connect this city with Boston, is a matter of considerable discussion in business and social circles and like all other schemes of public interest, has its advocates and its opposers-We take the side of the railroad. Among the reasons which should operate in its favor among the inhabitants of this island are the following :

ADVANTAGES TO NEWPORT.

1st, It will put us in closer confraunteation with Boston and interme diate stations, furnishing us with the facilities for visiting that city and returning the same day, without the necessity of the present fatiguing and vexations process of waiting for the early boat. It will also give us what we have never before effoyed except for a few weeks in the summer season, the opportunity of reaching Full River and Boston from here in the afternoon.

2d. It will add to the business of the place, by indusing business men to settle here and introduce branches of industry which they will not do in a place that has so few facilities of transportation as this.

3d, It will enhance the value of our harbor, especially in the winter season; vessels from foreign and western ports bound to Botton, could and would than discharge their engoes here and forward them by ro I thus avoiding the delay and risk of an outside passage to that port on a coast always dangerous in the winter.

4th, It will add to the value of our city as a watering place, by bringing us within three hours' travel of Boston, whose inhabitants could then board their families here, and still be able to attend to their business in Boston and visit their families here as often as they chose.

These are some of the advantages that would sectue to our city from a railroad Now let us enumerate some of its

AUVANTAGES TO THE FARMER,

1st. It would bring his lands nearer to he market, and enable him to sell his produce without the necessity of losing his own time and that of a horse, for half a day each time he came to market.

2d, It would enhance the value of his land. Once get a railroad across the is. with which the interior of the island abounds, would be taken up at prices for which the farmer would now be willing to sell a whole farm.

These inducements alone (and there are till others which we have not room to enumerate,) should be sufficient to not only make the farmers willing to give the right of way through their bot, but to contend with each other for the privilege of having the road cross their farms.

TLOWING OF THAMES STREET, - As one of the conrotaitant features of the desolatfon which was predicted for an ancient city as recorded in the Scriptures, it was stated that its streets should be ploughed up. The desolation of Newport in the w inter season is proverbial, but the climax of its desolation was capped yesterday by the appearance of a plow in its principal street, propelled by six yokes of oxen dislodging its pavens a's and rendering the thoroughfare impassable from the Parado to Mary Street. It is said that these pavements have not been disturbed before since the Revolution, being the same that were traversed by the wheels and feet of the British soldiery

Parties are engaged in repairing the iown Rose touse credial for fire convenience of hunters and fishermen. Those wishing to aid in defraying the expense-some \$70-may hand their contributions to Benj. A. Saver or Geo. W. Sayer, Jr.

Orossums.-The scheoner Fanny Fern which arrived here Tuesday, brought fou live opossums, taken at James River, Vo. one of which is on board the vessel now. One of the others escaped and is at larg. somewhere in the eng.

In It is a pity that the sidewalks of Thames Street could not come in for i share of the improvements now going a in that thoroughfare.

A slight fall of snow yesterday morning was a hint of the near approac; of winter.

IMPORTANT DECISION .- The New York Court of Appeals has deeded that a person who has contracted to work for a give who has contracted to work for a given time, and before the expiration of that period is "by the Providence of God" op-bled from performing the service, can be his representatives recover for the label already performed. already performed. It is said this questiever before been decided by the cour in this country.

A woman was borned to death in A. bany, on Wednesday, by falling on a stoy. when drank,

Prox Bootra.—The news from Bogott is important. On the 8th mil., President of Spain helared the confederation on state of war, and placed the army on a war feeting. The ports of Carthegens and Sabarilla are also declared closed smill the establishment of peace, and certenal trade with those ports is published. There was great excitement in Bogota, and little doubt, caixed that the revolutionary instruction would spread over the country. A stringent rerouting system had been adopted by Prositive Opina, which was creating that the two beauting system had been adopted by Prositive Opina, which was creating to the to the caliment shows of what the army into be sourced.

NEWPORT DAILY NEWS,

10.015.... Two Days Later From Europe. THE STEAMSHIP JASON AT ST. JOHNS.

Sr. Johns, N. F., Oct. 25.—The steam. ship Jeson, from Galway on the evening of Monday, the 17th inst., arrived at the port at 12 o'clock last night, and sailed at 11 o'clock this morning for New York, The China mail has reached England The American Minister has been courte. ously received at Pekins and is expected to be able to send home the ratified treaty by the next mail.

It was denied that France seeks any icdemnity from Sardinia for the expenses of the war, and the denial is accompanied by by the statement that she merely asks for . the payment of the advances made by her to that Power. New York, Oct. 27. The steamer New

World, on her triy to Albany last evening, when off Spurten Devil Creek, broke her walking beam, which, from its great weight; fell through her bottom, shaltering her centre and rendering the bost o compiete wreck. She began to fill at once, and in twenty minutes she suna. She had 300 passengers who were all research by the steamer Ohio and several sailing There is a rumor, however, that sessed of the passengers went down with the steamer. Nothing was saved but the passengers' carpet bags and valises. The New World had a large amount of valuable freight, on which there is no insurance. graft who game to her relief.

### TEACHERS' INSTITUTE

A. M. Bininger & Co.

(Established 1778,)

SOLE IMPORTERS. No. 338 Broadway, N. Y.

This DELICIOUS TONIC especially designed for the use of the Mesical Provession and the Family, possesses those intrinsic medicinal properties (Tonic and Diuretic) which belong to an Old and PURE GIN. The business of manufacturing spurious gins, and offering them as beverages, under the titles, "Aromatic,"-" Cordial,"-" Medicated," etc., has become so common, that the public are justly suspicious of nearly everything that is offered under similar forms, and the trade has thus been brought into disrepute It has remained for our house (established in 1778) to supply the pressing popular need, and to inangurate a new era in the history of the Trade. We trust that our established reputation - founded upon eighty years of experience - abundantly vindicates our claim to public confidence.

A comparison of "Bininger's Old London Dock Gla" with others bearing similar names, will establish its superiority, and make other Caurion unnecessary.

Put up in Quart Borrles, in Cases of one and two dozen each, and sold throughout the world by Druggists, Grocers, etc.
